PROFESSIONAL SUMMARY

Senior Product Manager with 4+ years at Intuit leading platform consolidation, AI-powered workflows, and direct payment processor integrations across Payments, Tech4Intuit, and Intuit Academy. Track record of mission-critical platform launches serving 17K+ internal users and 140K+ external operators, with measurable lift in engagement, satisfaction, and operational efficiency across engineering, risk, and external partners.

EXPERIENCE

Senior Product Manager — Intuit Inc., Mountain View, CA | Feb 2023 – Present

Payments Platform, FinTech • Current scope

- **Own a portfolio of 3 strategic payment platform initiatives** — AI-powered intake workflows, developer documentation modernization, and direct processor integrations (Chase, AMEX) — projected to unlock \$9M+ in annual business impact and eliminate the top operational bottleneck for FinTech engineering teams.
- **Shipped redesigned AI-assisted intake workflow** with structured PRD templates, cutting intake-to-roadmap-decision cycle time and improving prioritization signal quality for the Payments 2.0 modernization program.
- **Partnered across engineering, risk, and external acquiring partners** to close platform gaps blocking acquiring expansion — improving roadmap readiness for revenue-critical migrations tied to processing revenue and payment reliability SLAs.

Enterprise Ecosystem, Tech4Intuit • Prior scope

- **Led strategy and launch of a mission-critical enterprise platform**, consolidating 4+ legacy systems into a unified, scalable solution serving 17,000 global users across Intuit business units.
- **Drove a 31% lift in platform engagement** by integrating AI-powered personalization services and optimizing the underlying data architecture for real-time user experiences.
- **Standardized high-stakes workflows for the 17K-user base**, improving user satisfaction by 15% (in-product NPS / CSAT) and reducing support escalations.
- **Owned the scalability roadmap for Intuit Academy** serving 140,000+ expert learners powering Intuit's live service operations (TurboTax Live, QuickBooks Live).

Product Manager Intern — Intuit Inc., Mountain View, CA | Jun 2022 – Sep 2022

- **Drove new product development for an internal platform**, delivering features projected to generate ~\$50M in savings and a 30% lift in employee satisfaction across thousands of users.
- **Owned the PRD end-to-end** — user journey mapping, feature definition, technical requirements, success metrics — and shepherded features from QA through production.

EDUCATION

Dartmouth College, Master of Engineering Management (Product Management Specialization) | Sep 2021 – Jan 2023

- *Thayer School of Engineering & Tuck School of Business* — George C.A. Conrades '90 Distinguished Fellowship • **Coursework:** Technical Product Management, Data Analytics & Visualization, Negotiation

B.Tech, Pharmaceutical Chemistry — Institute of Chemical Technology, Mumbai | Jun 2017 – May 2021

- *GPA: 9.71 / 10* • *Rank #3 in the university*

ADDITIONAL EXPERIENCE

Founder — MEMRY (mobile app) | Feb 2022 – Jan 2024

- **Led end-to-end product lifecycle** for a caregiver-engagement mobile app for Alzheimer's patients — from customer discovery through launch — managing a cross-functional team of engineers, designers, and PMs.
- **Secured \$13,000 in seed and grant funding** after winning Dartmouth's 2022 "The Pitch" competition (1st place against 120 teams).

SKILLS

Product: Platform Strategy, Roadmapping, PRD Authoring, A/B Testing & Experimentation, OKRs & KPI Definition, RICE Prioritization, Agile / Scrum, GTM Strategy, Stakeholder Management

Domain & Technical: Payments & FinTech, Payment Gateway & Processor Integrations (Chase, AMEX), PCI Compliance, Enterprise Platform Consolidation, AI / GenAI-powered Workflows, API-driven Services, Scalability Planning, Data Modeling

Tools & Analytics: SQL, Tableau, Power BI, Jira, Confluence, Amplitude, Figma, Excel, R
